

LIST OF FIGURES

Figure 1-1	RC Millimole Regression Between <i>In Vitro</i> Cytotoxicity (IC _{50x}) and Rat and mouse Acute Oral LD ₅₀ Values for 347 Chemicals.....	1-11
Figure 1-2	NICEATM/ECVAM Validation Study Phases	1-14
Figure 2-1	Major Steps for Performance of the NRU Test Methods in the <i>In Vitro</i> Cytotoxicity Validation Study	2-6
Figure 2-2	Optical Density with NR Concentration and Duration	2-34
Figure 2-3	SLS IC ₅₀ for Each NR Concentration and Duration	2-34
Figure 2-4	Representative Dose-Response for 2-propanol in a 3T3 Range Finder Test.....	2-38
Figure 2-5	Representative Dose-Response for Aminopterin in a NHK Range Finder Test.....	2-40
Figure 2-6	Representative Dose-Response for Aminopterin in a NHK Definitive Test....	2-40
Figure 2-7	Flow Chart for Determination of Reference Substance Solubility in Medium, DMSO, or ETOH.....	2-49
Figure 3-1	The Fifty-Eight (58) Selected Registry of Cytotoxicity (RC) Chemicals on the RC Regression.....	3-21
Figure 4-1	Correlation of Rat and Mouse LD ₅₀ Values for 173 RC Chemicals.....	4-9
Figure 4-2	Correlation of LD ₅₀ Values for the 58 RC Chemicals	4-19
Figure 5-1	3T3 NRU IC ₅₀ Values by Reference Substance and Laboratory.....	5-26
Figure 5-2	NHK NRU IC ₅₀ Values by Reference Substance and Laboratory.....	5-29
Figure 5-3	RC IC ₅₀ Values vs 3T3 NRU IC ₅₀ Values for the 58 Common Chemicals	5-35
Figure 5-4	RC IC ₅₀ Values vs NHK NRU IC ₅₀ Values for the 58 Common Chemicals	5-35
Figure 6-1	Combined-Laboratory 3T3 and NHK Regressions.....	6-7
Figure 6-2	Regression for the 58 RC Substances Using RC Data.....	6-8
Figure 6-3	Regression for the 58 RC Substances with the 3T3 and NHK NRU Regressions	6-9
Figure 6-4	RC Regression (a) and RC Rat Regression (b) Using Millimole Units.....	6-11
Figure 6-5	RC Rat-Only Regression (a) and RC Rat-Only Regression after Excluding 50 Substances with Specific Mechanisms of Toxicity (b) Using Weight Units ...	6-13
Figure 6-6	<i>In Vitro</i> – <i>In Vivo</i> Regressions for Phases Ib and II for ECBC	6-38
Figure 6-7	<i>In Vitro</i> – <i>In Vivo</i> Regressions for Phases Ib and II for FAL	6-39
Figure 6-8	<i>In Vitro</i> – <i>In Vivo</i> Regressions for Phases Ib and II for IIVS.....	6-40

Figure 7-1 SLS IC₅₀ for Each Laboratory and Study Phase 7-29
